News Release

## WebSilicon is Approved as Motorola Design Alliance Member

WebSilicon ([www.web-silicon.com](http://www.web-silicon.com)) announced today that it was approved by Motorola Semiconductors ([www.mot-sps.com](http://www.mot-sps.com)) as Design Alliance Program Member.

As Design Alliance Member WebSilicon will provide development services to users of Motorola microprocessors and microcontrollers, offering full turn key development services of both hardware and software.

WebSilicon design expertise covers the following Motorola product families:

- MPC8XX Integrated Communications Processors
- MPC82XX
- MPC85XX
- M68HC05 Family
- M68HC08 Family
- M68HC11 Family

With extensive background and vast experience in Network Management and Element Management System development aspects, WebSilicon offers development outsourcing services on a turnkey basis.

WebSilicon develops fully customized hardware and software products, enabling management of devices in network environment using standard protocols and cross-platform Web-Based Management architecture.

Active since 1998, with track record of over 30 successfully accomplished projects for customers in telecom, datacom, optical systems, power, etc. WebSilicon offers professional R&D services to OEM's, system integrators, service providers, and operating companies.
