News Release

Embedded SNMP Controller and Automated Server Shutdown Software Delivered to Enercon Conversion Systems Ltd

WebSilicon (www.web-silicon.com) announced today that an Embedded SNMP controller based on WebSilicon's WebMon platform and EMS Client/Server software package for automated server and network shutdown were delivered to Enercon Conversion Systems Ltd.

“Gaining Enercon Conversion Systems as a new customer strengthens WebSilicon’s dominance in the important sector of management solutions for Power Systems.” said Mr. Iftah Bratspiess, WebSilicon CEO. “In addition, The WebMon based embedded SNMP controller for Enercon Conversion Systems’ products marks a double celebration for us: It is the 10th design-win for the WebMon platform, and it breaks the 10K units/year deployment barrier.”

As component prices drop, together with increased awareness of end customers to connectivity issues of widely deployed products, the WebMon platform with the excellent price/performance ratio it offers is centered at the development roadmap of many new projects as well as enhancement programs of existing products.

With extensive background and vast experience in Network Management and Element Management Systems development aspects, WebSilicon offers a rich set of system components as well as design and development professional services on a turnkey basis.

WebSilicon develops fully customized hardware and software products, enabling management of devices in network environment using standard protocols and cross-platform Web-Based Management architecture.

Active since 1998, with track record of over 45 successfully accomplished projects for customers in the fields of telecom, datacom, optical systems, security, wireless, power systems, etc. WebSilicon offers professional R&D services to OEM’s, system integrators, service providers, and operating companies.

Enercon, (www.enercon.co.il) is a custom design house for military, avionic, naval, space, telecom, rugged power sources and uninterruptible power supplies, backed by a large engineering team. Enercon designs and manufacturers DC/DC Converters, DC/DC Multi-Output Converters, DC/AC Converters, AC/DC Converters and UPS Systems.
